Pursuant to provisions of 20 U.S.C. 8061 s. 10306, all charter schools shall receive all federal funding for which the school is otherwise eligible, including Title I funding, not later than 5 months after the chart school first opens and with 5 months after any subsequent expansion of enrollment. Unless otherwise mutually agreed to by the charter school and its sponsor, and consistent with state and federal rules and regulations governing the use and disbursement of federal funds, the sponsor shall reimburse the charter school on a monthly basis for all invoice submitted by the charter school for federal funds available to the sponsor for the benefit of the charter school, the charter school's students, and the charter school's students as public school students in the school district. Such federal funds include, but are not limited to, Title I, Title II, and Individuals with Disabilities Education Act (IDEA) funds. To receive timely reimbursement for an invoice the charter school must submit the invoice to the sponsor at least 30 days before the monthly date of reimbursement set by the sponsor. In order to be reimbursed, any expenditures made by the charter school must comply with all applicable state rules and federal regulations, including, but not limited to, the applicable federal Office of Management and Budget Circulars; the federal Education Department General Administrative Regulations; and program-specific statutes, rules, and regulations. Such funds may not be made available to the charter school until a plan is submitted to the sponsor for approval of the use of funds in accordance with applicable federal requirements.
